

CFA PROPOSAL

BY: Student Council Members.

Bonding! Why we are focusing on this.

This year, we would like to place emphasis on community building, in other words, school culture. We asked for the students', and some staff, opinions on how to distribute funds, so there isn't money used on unnecessary or unwanted things. Because the goal is building community, the next series of slides will focus on how we hope to do that.

How we want to **SPEND** to **IMPROVE**

Improving our school community is our biggest goal for this year. Last year, the lovely CFA bought picnic tables and a basketball hoop with the money the student council raised.

Unfortunately, there is no access to the basketball hoop this year due to staff parking. We do have access to the picnic tables, but they are located in an area that we share with the lower school students. This year, we want to work with the CFA to determine how we can use the funds, or at least a portion of it, to directly impact our experience at CMI.

We are starting a monthly student newsletter and would love to incorporate our progress towards some of the goals.

Recess Equipment

We would like more choices at recess. When taking student surveys, many kids expressed a desire to play different sports and not just sitting on picnic tables or playing soccer with no goals. Nets can be found on Amazon for \$30.99/net.

We would like to invest in additional swings (spider web), monkey bars, double dutch ropes and things to do; like the younger kids have. Sometimes, we have heard that the Middle School kids feel less valued, because we don't have as many things as the younger kids have.

Lunch / Snack / Beverage Options

Last year, Student Council interviewed Ms. Anna, our lovely Cafe Coordinator, and found out we are in a contract with a food supplier. Unfortunately, many students aren't happy with the food choices, or are still finding themselves hungry after eating the small portions provided to them, therefore:

We want to sell healthy snack and beverage options for students who are still hungry or want options. Hunger leads to less learning and more tempers. Imagine going to work hungry!!!

This will only occur during our lunch and recess (we do not want to distract from learning!!)

Student Council will do the selling, with Ms. Val or Ms. Tara

But What If A Kid Can't Afford It

Let's Chat Personal Goal Bucks

- No incident report this week = 5 CMI Bucks
- Displays of Integrity around the school= 5 CMI Bucks
- Completed all classwork and homework this week = 5 CMI Bucks
- Showed Leadership In The Classroom = 10 CMI Bucks
- Resolved a conflict appropriately = 15 CMI Bucks

(100 CMI Bucks = \$1 worth of spending) and Ms. Val / Ms. Tara will get the info from teachers to tally points. Teachers will be able to individually share buck amounts to their students during advisory.

CEA Thanks

The Student Council Members have come together to this proposal to make CMI an even better school and we think that you all deserve more than just a thank you. We would like to organize a BBQ for you at the end of the school year (more details coming soon)!

Thank you again for taking the time and effort to take our proposal into consideration.
